Dr.  
Josua Lederberg  
Assistant Professor of Genetics  
Dpt. of Genetics, University of Wisconsin

Madison 6 / Wisc.  
U.S.A.

Dear Dr. Lederberg,

I thank you for your post card, in which you beg for my reprints. Under ~~two or~~ three covers, I send you my papers being of some interest. Unfortunately my earlier reprints were lost by war, but a few came through; so I can give you from this rest reprints of most of the papers, besides 1.) Über Bau, ~~und~~ Häufigkeit und Auswirkungen der spontanen Translokationen, Flora 135, 239-302, 1941; 2.) Die Bestimmung der Dosisabhängigkeit röntgeninduzierter Veränderungen auf den Chromosomen von *Bellevalia romana*. <sup>2. f. Botanik 37, 247-317. 1942</sup> ~~Ber. Dtsch. Bot. Ges. 60, 98-124. 1942~~; 3.) Über eine röntgeninduzierte Mutation mit abweichendem Erbverhalten bei *Oenothera Hookeri* (Vorl. Mitteilg.) Flora 37, 152-165; 1943. <sup>\*</sup>

If you should be interested also in them, I could easily send you the typewritten condensed contents.

If you could spare for me reprints of your own papers, I would be really grateful. We discussed here intensively your very interesting findings, issued in Genetics.

Sincerely yours

Prof. Dr. Dr. H. Marquardt
